

Aircraft Component Technician, Pneumatic Valves / Air Cycle Machines

Since 1992 GAC has established itself as a leading provider of aircraft component MRO services to the aerospace industry. We provide landing gear, air cycle machine and other component overhaul and loaner services to aircraft operators around the world.

GAC provides its employees with a competitive salary along with Group Benefit Life Insurance, Long Term Disability, Dental and Health coverage. In addition, the company will match your retirement savings contributions through a Group RRSP company plan.

If you want to be part of a dynamic, team oriented environment, GAC may be the company for you!

In this role you will:

- Perform the maintenance tasks of disassembly, cleaning, inspection, assembly, modification and test of **Pneumatic Valves** and/or **Air Cycle Machines**.
- Record all maintenance tasks carried out on aircraft components work order packages.
- Read and interpret maintenance manuals and other specifications to determine the method of repairing Pneumatic Components and/or Air Cycle machine.
- Measure parts for wear, using precision instruments.

An ideal candidate would possess:

- Completion of college/vocational or technical training.
- Ability to read and follow technical drawings and instructions.
- Excellent “hands on” mechanical dexterity.
- Good ability to read, write and speak English.
- **2+ years experience required.**

*Salary: \$24 - \$34 / hr.
