

Career Opportunity

Junior Design & Repair Engineer

Since 1993 GAC has established itself as a leading provider of aircraft component MRO services to the aerospace industry. We provide landing gear, air cycle machine and pneumatic valve component overhaul and loaner services to aircraft operators around the world.

GAC is currently seeking an energetic & highly motivated Design & Repair engineer to join our growing team. If you want to be part of a dynamic, team-oriented environment, GAC is the company for you!

In this role you will:

- Become an integral member of our Engineering Team
- Assist in the design and develop of parts & repairs for aeronautical components
- Develop detailed design drawings and specifications using Solid Edge software
- Carry out dimensional inspection processes utilizing micrometers, calipers and bore gauges, etc.
- Assist in other manufacturing processes as required

In this role you will receive:

- A starting salary of \$ 45k to \$ 50k.
- On the job paid training.
- Extended Health, Drug & Dental benefits.
- Long term disability & Life Insurance.
- RRSP matching contributions.
- Future growth opportunities in an exciting goal-oriented environment

Ideal Qualifications:

- Bachelor degree in Mechanical or Aerospace Engineering
- Work experience in Mechanical or Aerospace Engineering
- Two years of experience with Solid Edge CAD software.
- Knowledge of dimensional measurement and Geometric Dimensioning & Tolerancing (GD & T)
- Ability to work well under pressure in a fast paced, result orientated, team environment
